

FOOTVERSE

Simple User Guide

Play football. Build your team. Compete.

PLAY • MANAGE • COMPETE

A simple guide for players, teams, organizers, and football fans.

1. Getting Started

FootVerse is a place to play football, manage your team, join tournaments, and follow matches.

Create your account
✓ Open FootVerse and choose Sign Up.
✓ Enter your details and create your account.
✓ Log in and you are ready to go.
What can you do?
✓ Player — join a team, play matches, and see your stats.
✓ Team member or manager — manage your team and take part in matches.
✓ Organizer — create tournaments, schedule matches, and record results.
✓ Public user — browse tournaments, teams, players, and live matches.

2. For Players

Your team is the main place for your football activity.

Join a team

- Open Teams and choose Join Team.
- Enter the team code shared by your manager.
- Once accepted, your team will appear in your account.

Your player profile

Open your profile to see your football information, matches, goals, and available statistics.

Tournament awards such as Top Scorer, Best Goalkeeper, and Best Player are shown when available.

3. For Teams

Team managers can keep their team information and players organized.

Manage your team
✓ Open My Team.
✓ Add or manage players.
✓ Share the team code when a player wants to join.
✓ Check your team's matches and results.
✓ View team statistics.

Quick Match

A Quick Match is a normal match that does not belong to a tournament. Choose your own team, create the match, and share the match code with the opponent.

4. For Organizers

Organizers can run football tournaments from start to finish.

Create a tournament
✓ Create your tournament and add the basic details.
✓ Add teams to the tournament.
✓ Choose the tournament format.
✓ Create fixtures or the knockout bracket.
✓ Run matches and enter results.
✓ Follow standings, statistics, and tournament awards.

Tournament formats

League — teams play matches and standings decide the ranking.

Group Stage — teams are divided into groups and play within their groups.

Knockout — teams advance through rounds until the final.

Hybrid — group stage first, followed by knockout rounds.

5. Playing a Match

When a match is ready, both teams can play and the match screen keeps the score and events together.

Match flow
✓ Both teams join the match.
✓ An authorized team member or manager starts the match.
✓ The live timer begins.
✓ Goals and other match events can be recorded.
✓ At full time, the final result is saved.
✓ For knockout matches, the winner moves to the next round.

Watching a live match

Public users can open a match and follow the teams, score, timer, and available match events without controlling the match

6. Quick Match

Quick Match is for a normal football game outside a tournament.

Create a Quick Match
✓ Choose your own team from your teams.
✓ Create the match and get a match code.
✓ Share the code with the opponent.
✓ The opponent selects their team and joins using the code.
✓ When both teams are ready, an authorized person starts the match.

The live timer

Once the match starts, the timer appears on the live match screen. Refreshing the page does not reset the match time.

7. Find Things Quickly

Use the search bar to find players, teams, and tournaments.

✓ Browse public information without needing to be part of the tournament.

Awards & statistics

Tournament pages can show Top Scorer, Best Goalkeeper, and Best Player when the information is available.

8. If Something Doesn't Work

Quick checks

- ✓ Make sure you are logged in.
- ✓ When creating or joining a match, select your own team.
- ✓ For Quick Match, check that the opponent is using the correct match code.
- ✓ If a match is waiting, both teams may not have joined yet.
- ✓ If you cannot start a match, you may not have permission to control it.
- ✓ Refresh the page if new match information is not visible yet.

Need help?

Keep the match code, tournament name, or a screenshot of the problem when asking for help.
This makes it easier to understand what happened.
